Testimonials

Back Scratcha Book

Being a Grandmother of five, I have found that this book is just the ticket for making plans for each visit I have with my grandchildren.

The "Back Scratcha Book" has proven to add fun, entertaining and educational things to do with each child and to top it off it's a surprise for everyone. Including me!

Gloria Melanson
Grandmother

The numerous, exciting and creative activities found within the unique design of this *Back Scratcha Book* is a wonderful addition to anyone's resource collection.

As an Early Childhood Educator and mother of two school-aged daughters (ages 9 and 11), I would highly recommend this book to families wishing to further expand their relationships with each other.

Debbie Crane
Early Childhood Educator
Parent of two school-aged daughters

Testimonials

Every so often an idea comes along out of the blue that changes the way we do things that we take for granted. The *Back Scratcha Book* is one of those ideas.

In a day when children are either glued to their video games, computers, or music TV channels, the *Back Scratcha Book* is a wonderful way to get them to love activity books again.

This is the one that has hit the proverbial home run. What a great way to spend quality time

with children and get to know them better and in turn have them get to know us better. No buttons, no keys, no screens. Times were simpler, and this is the way to get to "that place" again.

Way to go, Darlene. Your mind is blessed with a creativity that children can learn much from. Keep up the great work!

Roger Caranci
London City Councillor
